Advantages as standard:

- Well balanced Spiral Rotor for Maximum
- Shredding using less power
- Gear box with integrated over-run
- Even Distribution of the cut material behind the roller
- Made from High Quality Steel QS/E
- Optimised hood shape
- Adjustable Mulching Quality
- Well proven „M“ blades with over 100,000 in use
- Multiple variations of Headstock fitments
- Shredding in both short and long grass
- Shredding in all weather conditions
- Maximum profitability – Multi purpose use

Optimize the equipment of your mower:

- (1)** Special Head-Stock Cat. I, **(2)** Height adjustable rubber wheels 360° swivel
(3) Rotor with „M“ Shackle Flails, **(4)** Hydraulic side shift (possible only with MU-H and MU-L standard headstock), **(5)** Hood Wear plate, **(6)** Carbide wearing skirts, **(7)** Second shredding bar
