

WOODS® RC-SERIES CUTTER

Model RC5

The Woods RC-Series Single-spindle Rotary Cutter is the ideal attachment to get the most from your sub-compact or compact tractor. With a cutting width of 1,52 meters, the RC5 is ideal for clearing brush, maintaining trails, and cutting pastures.

- Unique smooth, sloped decks are easy to clean and reduce build-up of water and debris
- Stump jumpers are standard on all models for added driveline protection
- High-strength steel and quality parts provide dependable service year-after-year
- Three-year gearbox warranty is one of the best in the industry
